

Carbon Fiber

Polyacrylonitrile (PAN) Fiber Solutions offered by Kilop USA, Inc

***Kilop USA** has a business / sales relationship with a US manufacturer that has the **HIGHEST QUALITY STANDARDS** and can make all specialty materials.*

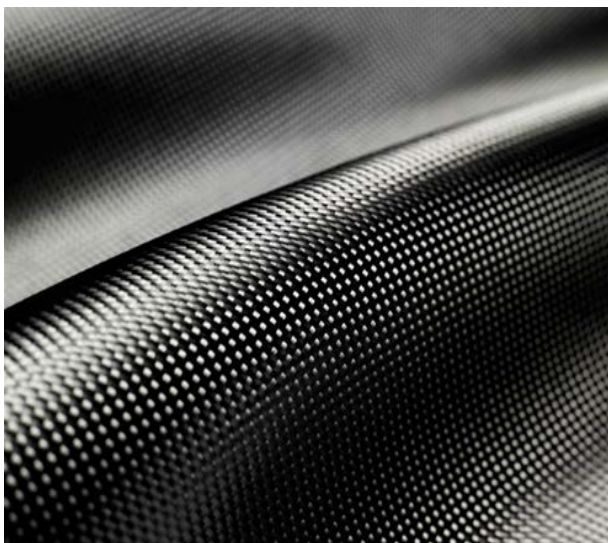

USA produced carbon fibers:

Standard Modulus – Strong product that is widely used in high strength applications

Intermediate Modulus - This product is used extensively in aircraft or aerospace construction

High Modulus – Newest and highest technical capability

*Carbon fiber is unique product that is regulated by the US Dept of Commerce but **Kilop USA** can supply and facilitate approval for sale in authorized applications.*

Our 25 years of fiber experience makes us a natural fit for sourcing the highest quality carbon fiber in the world.
